#### Machine Perception CIS 580 Spring 2012

Grading Policy: Homeworks 50%, Midterm 20%, Final 30%

Homeworks on paper and using Matlab.

Midterm is on paper.

Final is a project including paper calculations and Matlab.

#### Resources:

Szeliski's book

http://research.microsoft.com/en-us/um/people/szeliski/Book/

H. Farid, http://www.cs.dartmouth.edu/farid/Hany\_Farid/Tutorials/ Entries/2011/6/3\_Fundamentals\_of\_image\_Processing.html

Zisserman and Hartley, Multiple View Geometry

Castleman, Digital Image Processing

# Machine Perception: in this course only vision => computer vision

#### Main journals of the field:

- IEEE Pattern Analysis Machine Intelligence (PAMI)
- Int. Journal of Computer Vision (IJCV)
- CVIU, IVC, PR, PRL,...

#### Main conferences of the field:

- IEEE Computer Vision Pattern Recognition
- IEEE Int. Conf. Computer Vision
- European Conference Computer Vision

Graphics and Robotics are the nearest fields, great vision papers at SIGGRAPH as well as at ICRA and Trans. Robotics or IJRR.

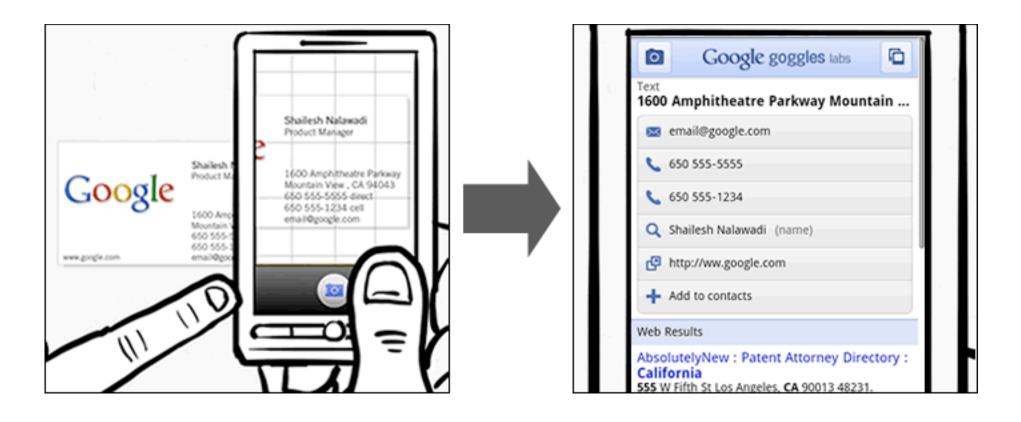

## Applications: JPEG-MPEG compression

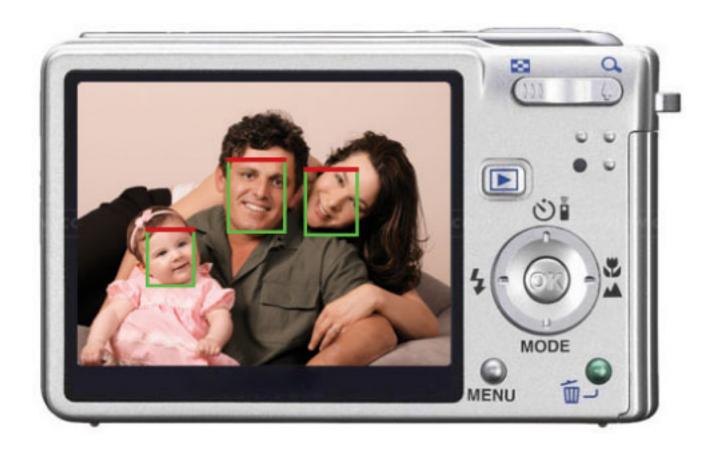

#### **OCR**

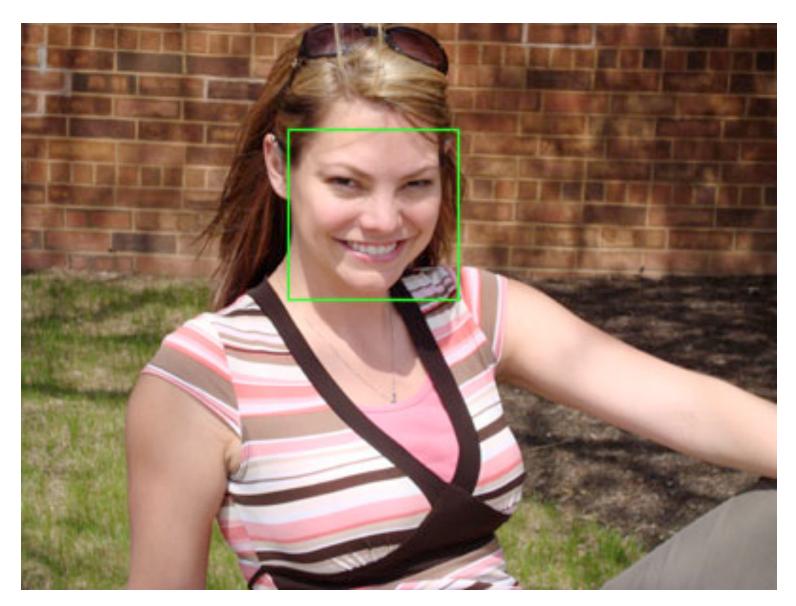

#### Face detection inside millions of cameras

#### Smile detection in cameras

### Panoramic stitching

In all photo-management systems (here photoshop)

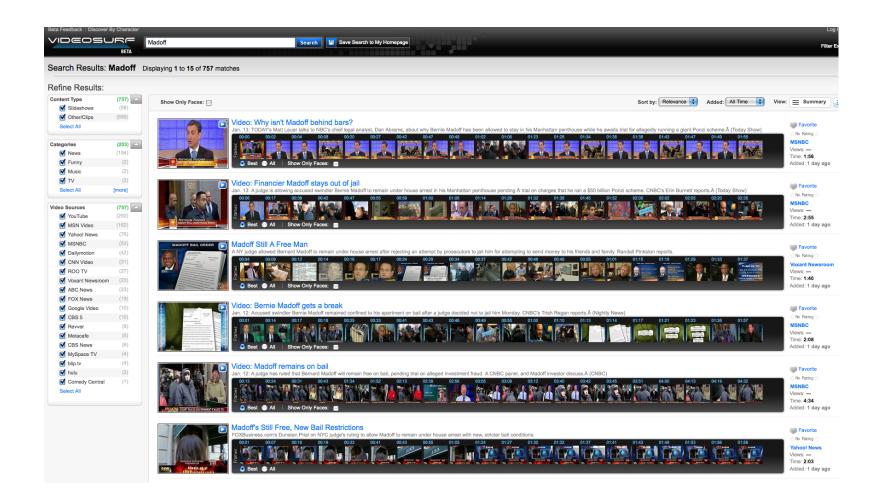

# Object removal in photo editors

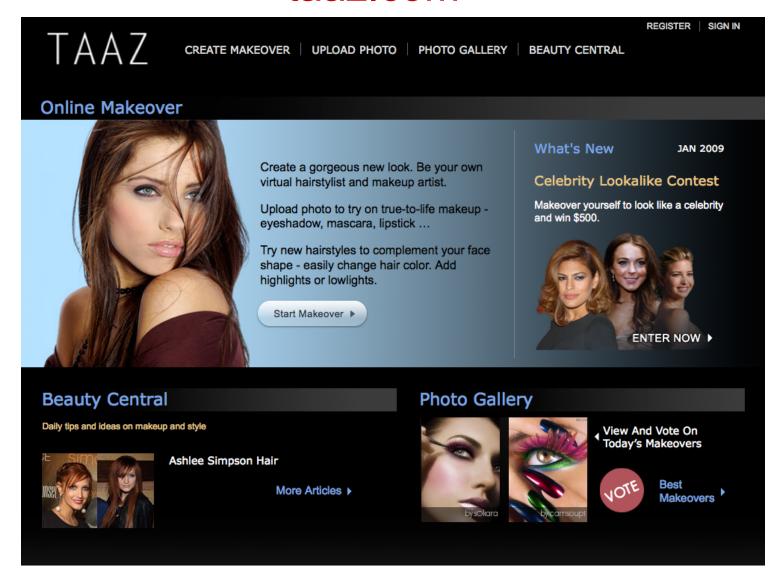

#### Videosurf.com

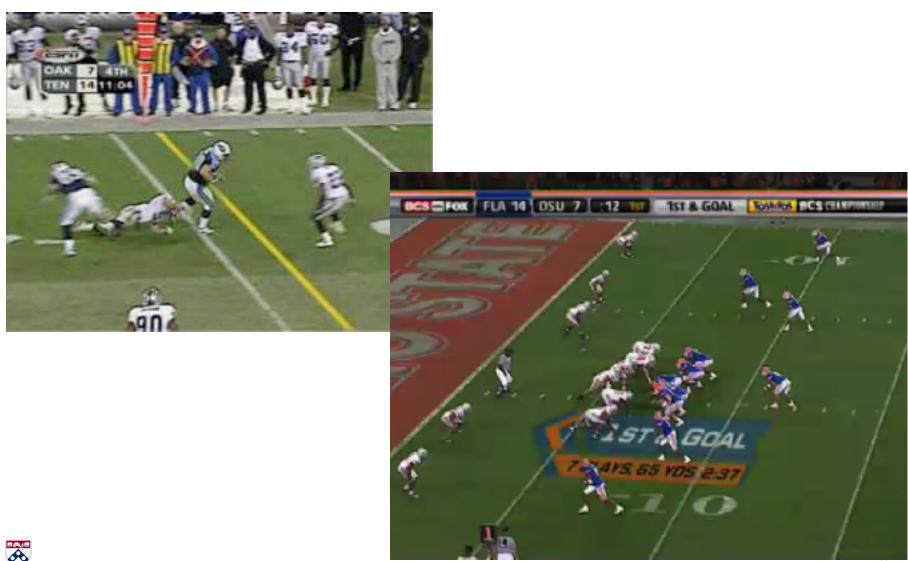

#### taaz.com

#### Virtual Yellow Line and Billboards

## Sportsvision.com: Tracking and annotating

### Tracking and replacing images: Imagineer

#### Evoretail.com

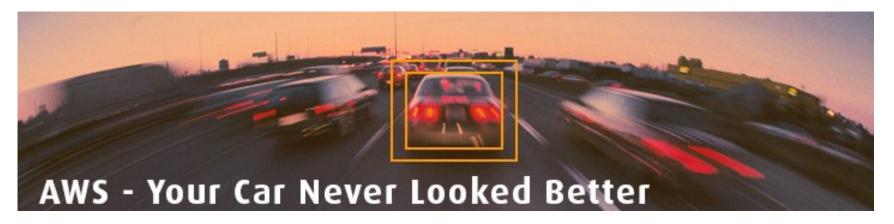

Bottom of the cart and top of the cart detection!

#### MobileEye

- Lane Departure Warning (BMW 5' series)
- Forward Collision System (2.7 sec ahead)
- Headway monitoring and Warning
- Off-road path finding

### Surveillance

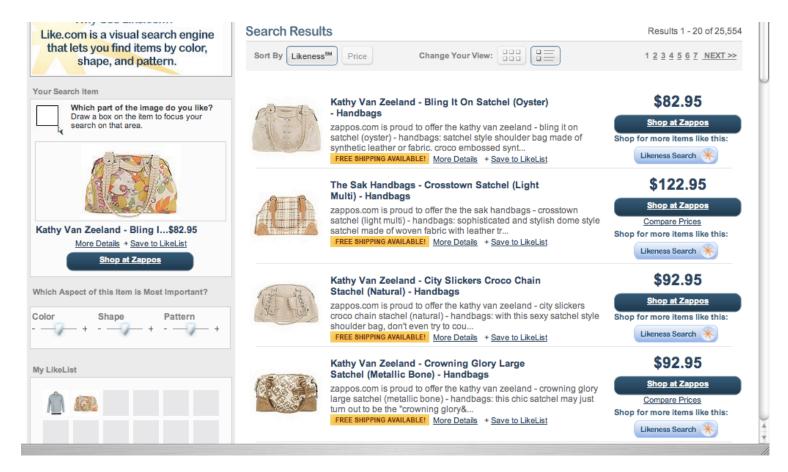

## Microsoft Photosynth

# like.com (now boutiques.com at Google): image search for products

Given an image query of a product, find the closest products in shape, color, pattern.

## Google Image Similarity
