Typos and Errors In Aspects of Harmonic Analysis on Locally Compact Abelian Groups

by Jean H. Gallier and Jocelyn Quaintance

April 15, 2025

631, line -5, change " $\{0\}$ " to " $n\mathbf{Z}$."

634, just before Definition 6.9, insert: The maps $g \mapsto L_g$ (where L_g is left translation by g) and $g \mapsto R_g$ (where R_g is right translation by g) are injective homomor-

phisms of G into the group of bijections of G (because $L_{g_1g_2} = L_{g_1} \circ L_{g_2}$ and $R_{g_1g_2} = R_{g_1} \circ R_{g_2}$, and the kernels of these homomorphisms are $\{e\}$).

635, delete the second paragraph.
