

**Homework Assignment 7**

Extensions of the Simply Typed Lambda Calculus

**Due:** Monday, October 27, 2003, by noon

**Submission instructions:** Same as usual.

**1 Exercise** 11.5.1 in TAPL.

**2 Exercise (optional)** 11.8.2 in TAPL.

**3 Exercise** 11.12.1 in TAPL.

**4 Exercise** 11.12.2 in TAPL.

**5 Debriefing**

1. How many hours did you spend on this assignment?
2. Would you rate it as easy, moderate, or difficult?
3. How much did you rely on our solutions while developing yours? (Completely / substantially / moderately / just for verification / not at all?)
4. Did you work on it mostly alone, or mostly with other people?
5. How deeply do you feel you understand the material it covers (0%–100%)?
6. Any other comments?
