

UNIVERSITY INTRAMURAL CORRESPONDENCE

Department of Chemical Engineering

MEMORANDUM

TO: ChE 459 Industrial Consultants

FROM: Warren D. Seider and Leonard A. Fabiano

DATE: October 25, 2002

SUBJ: ChE 459 Design Projects

First, we want to thank Eric Boder, Bill Retallick, Talid Sinno, Bruce Vrana, and John Wismer for suggesting timely projects. This year, we received 8 problem statements for 8 design groups. Based upon student choices, the problems were assigned and scheduled.

Enclosed you will find brief descriptions of the projects, the student groups and their faculty advisors, and the proposed consulting schedule. Also enclosed are instructions to the seniors for executing the ChE 459 design project. Please look over everything and let us know if there are any problems.

Cc: ChE Faculty
