

## Patents

I-W. Chen and C. M. J. Hwang, "Method of Superplastically Deforming Zirconia Materials," U.S. Patent 5,122,317 (1992).

I-W. Chen and A. Rosenflanz, "In-situ Toughened Alpha Prime Sialon Based Ceramics," U.S. Patent 5,908,798 (1999).

I-W. Chen and A. Rosenflanz, "Method of Making In-situ Toughened Alpha Prime Sialon Based Ceramics," U.S. Patent 6,139,791 (2000).

D. M. Liu and I-W. Chen, "Encapsulation of Biomaterials in Porous Glass-like Matrices Prepared via an Aqueous Colloidal Sol-Gel Process," U.S. Patent 6,303,290 (2001).

H. Choi and I-W. Chen, "Nanometer-sized Carrier Medium," U.S. Patent 7,189,417 (2007).

I-W. Chen and A. Mamchik, "Magnetically and Electrically-Induced Variable Resistance Materials and Method for Preparing Same," U.S. Patent 7,211,199 (2007).

I-W. Chen, Y. Wang and S. G. Kim, "Non-Volatile Resistance-Switching Oxide Thin Film Devices," U.S. Patent 7,666,526 B2 (2010).

H. Choi and I-W. Chen, "Fibrous Composites for Tissue Engineering," U.S. Patent and PCT application (2003).

V. P. Shastri, I-W. Chen, H. Choi and A. M. Lipski, "Functionalized Surface Coatings for Biomedical Uses," U.S. Patent application (2003).

V. P. Shastri, I-W. Chen and William Znidarsic, "Biomimetic Hierarchies using Functionalized Nanoparticles as Building Blocks," U.S. Patent application (2004).

V. P. Shastri, J. C. Sy and I-W. Chen, "Emulsion-based Control of Electrospun Fiber Morphology," U.S. Patent and PCT application (2005).

I-W. Chen, Yudi. Wang and Soogil Kim, "Resistance Switching Oxide Thin Film Devices," U.S. Patent application (2005).

I-W. Chen, Yudi. Wang and Soogil Kiim, "Non-Volatile Resistance-Switching Oxide Thin Film Devices," U.S. Patent and PCT application (2007).

I-W. Chen and H. Choi, "Biomimetic Iron-Oxide-Containing Lipoprotein and Related Materials," U. S. Patent and PCT applications (2007).
