

Summary .

I am an incoming Assistant Professor in the Department of Computer Science at Stony Brook University. Currently, I am a postdoctoral researcher in the Computer and Information Science department at the University of Pennsylvania (Penn) working with Prof. Boon Thau Loo. At Penn, I am a member of the NetDB research group, distributed systems lab, and database group. Before joining Penn, I received my Ph.D. in Computer Science at the University of California, Santa Barbara (UCSB) under the supervision of Prof. Divyakant Agrawal and Prof. Amr El Abbadi. My research mainly lies at the intersection of data management and distributed systems, focusing on distributed transaction processing, consensus protocols, and blockchains.
